

## Your Human Guides

(assisting the true teacher: Nature!)

**Anna Breytenbach**

Anna is a professional animal communicator who has been practising for 14 years, running workshops and events around southern Africa as well as in the USA, Europe and UK.

Also holding a degree in Psychology and qualified as a master training facilitator, she brings forth participants' skills through mentoring in a practical manner.

Anna's wildlife work focuses on conservation projects such as elephant management, whale and dolphin research, lion reintroduction, baboon rehabilitation and predator conservation.

In leading this adventure, Anna will guide you to rediscover and develop your natural senses so that you deepen your connection with all species in an honouring manner. Her goal is to raise awareness and advance the relationships among human and nonhuman animals, on the personal and spiritual levels.

**Antonio Palmieri**

Antonio has supported thousands of people on their journey of personal growth. He has lived and worked across two decades at the Findhorn Foundation Community during its pioneering years in sustainable practices promoting collaboration between humans and Nature.

His skills focus on group facilitation and team building, whilst fostering spiritual deepening and intuitive abilities. He has worked in Africa, India, Nepal and across Europe.

As the AnimalSpirit co-lead of this journey, Antonio offers expertise in guiding individuals through personal discovery.

Antonio brings support, guidance and new ways of seeing the world. As a teacher of the intuitive arts, he helps people relate to wildlife and the environment in an expanded, meaningful way far beyond the ordinary tourist experience.

**Alwyn Myburgh**

Born and raised in the Southern Kalahari on a sheep and cattle farm, Alwyn spent memorable times wandering the sand dunes with the group of San descendants they had living on their farm.

He was taught a deep appreciation for things great and small. Shortly after school, Alwyn completed a Game Ranger course in South Africa and relocated to Botswana to become a Professional Safari Guide.

For the past 20 years Alwyn has lived and worked in Botswana, embodying a passion to be out in the most unspoiled parts of Africa and share what Nature has taught him over the years. In passing on his considerable knowledge and care, he sensitively helps people capture their experiences in their memories and on camera.

Alwyn has experienced intuitive tracking and has a deep relationship with the lineages of leopards and wild dogs in the Khwai area.
